BIOCLAY

The importance of sustainability in our coatings

cement design[®]

Extracted from our natural quarry, Bioclay, is a clay coating composed only of raw clay and natural additives. It is characterized by its great adherence, resistance and breathability.

cement design[®]

It is ideal for interior spaces on walls, ceilings and furniture, creating rooms with a pure and organic look.

It is available in 4 different textures: Fine, Medium, Thick and Crack.

Take care of the planet with Cement Design. Bioclay is 100% natural.

Bioclay Thick

cement design[®]

Bioclay Crack

cement design[®]

Bioclay is presented in monocomponent format. We must adapt the application system depending on the surface conditions, this being an easy and fast application.

Caring for the environment is one of the main concerns of our company. More and more people are aware of the importance of preserving our environment, if it is good for you, it is good for your home.
